

FULL TIME (M/W/X)

UX/UI DESIGNER – MEDICAL TECHNOLOGY

As a UX/UI designer, you create intuitive, user-friendly interfaces for our medical software solutions. With a focus on usability and regulatory requirements, you will work closely with product management and development.

 **4320 Perg /
4053 Ansfelden** **from 3.175 - 4.350€
(at 38,5h)** **40-60%
Homeoffice**

Your Skills

- You have at least 2 years of professional experience as a UX/UI designer, preferably in the medical technology or regulated industry.
- You have a degree from a higher technical college/university with a design focus or a solid technical education.
- You have a strong portfolio showing your user-centered design process and solutions.
- You have expertise in usability principles, human factors and accessibility standards and experience with UX research methods, including user interviews, usability testing and data analysis.
- You have very good knowledge of design tools such as Figma, Sketch or Adobe XD.
- You have strong communication skills and the ability to collaborate in a cross-functional team as well as a proactive and problem-solving mindset with a keen eye for detail.
- Familiarity with medical device design standards (e.g. IEC 62366) is a strong plus.
- You have strong German and English language skills.

Your Tasks

- Leading the design development of intuitive, user-centered user interfaces for medical software applications.
- Conducting user research and interviews as well as usability tests to understand customer needs and potential risk situations.
- Translating complex clinical workflows into simple, elegant design solutions.
- Creating wireframes, prototypes and detailed UI specifications for new and existing products.
- Collaborate with product managers, end users and developers to ensure design feasibility and alignment with product goals.
- Advocate for usability and accessibility best practices to comply with medical device regulations.
- Maintain and evolve our corporate design to ensure consistency across all products.
- Staying up to date on UX/UI trends, tools and best practices relevant to the medical device industry.

We Offer

- Versatile technical projects in medical technology - with your work you help a lot of people every day
- Flexible working hours (home office option) and independent working in a young team
- A pleasant working atmosphere
- Possibility for personal development and training
- Exciting employee events
- Good coffee, chess and table football
- Free on-site parking
- Close to the train station
- Office space near Linz
- Meal allowance

Salary

The annual salary is **44.450 - 60.900€€ gross on a full-time basis** according to the IT collective agreement. Willingness to pay more based upon qualifications and experience.

About CADS

CADS GmbH, based in Perg, in collaboration with the KLS Martin Group, is the world's leading medical device manufacturer for surgical innovation with its visionary software solutions for professional use.

Digital Health is our Passion. This passion has been the basis of our success for 15 years and makes us a very special employer. We create groundbreaking software solutions that benefit patients and physicians worldwide.

We are constantly working on new developments and industry solutions and see the ideas, skills and potential of our employees as a central component.

You would like to join us on this path and contribute to helping people with your work? Then we would be happy to get to know you and welcome you to our team.

Would you like to become part of our team?
